hereby request for issuance of Biosafety Permit for Field Trial for the genetically modified (GM) plant/plant product described below:

Designation	Regulated Article	Donor Organism	Host Organism	Vector or Vector Agent	Constituents of the Regulated Article
Common Name	MON 87427 and all progenies derived from crosses of the product with any conventionally-bred maize, and /or maize containing registered biotech events.	Agrobacterium	Maize	MON 87427 was produced by Agrobacterium-mediated transformation with the plasmid vector PV-ZMAP1043	Molecular characterization demonstrated that MON 87427 contains a single copy of the <i>cp4 epsps</i> expression cassette, stably integrated at a single locus within the genome. There were no additional genetic elements, including backbone sequences from PV-ZMAP1043 detected, linked or unlinked to the intact expression cassette present in MON 87427.
Scientific Name	<i>Zea.mays</i>	<i>Agrobacterium</i> sp. Strain CP4	<i>Zea.mays</i>	NA	

Trade Name	RoundupReady Hybridization System	NA	NA	NA	
Other Designations	NA	NA	NA	NA	

Entity(ies) Who Developed/ Supplied Regulated Article	Entity # 1	Entity # 2	Entity # 3 (Use another sheet as necessary)
Name	Bayer CropScience LP		
Address	700 Chesterfield Parkway West Chesterfield, Missouri 63017 USA		
Tel. No.	+1 636 244 7287		
Fax No.	N/A		
Email Address	ed.allen@bayer.com		

**\* The following supporting documents are attached:**

1. When applicable, certification from the DOST-BC that the regulated article has completed contained use, including recommendations of the DOST-BC on conditions or issues to be addressed during field trial;
2. Copy of the initial risk assessment and proposed management procedures prepared by the IBC, which may be supplemented by a technical dossier consisting of relevant scientific information available at the time the application was filed. The proposed field trial management procedures must provide details on how to ensure reproductive isolation of the regulated article and prevent its accidental release or movement beyond the confines of the trial site;
3. Details of a contingency plan in case of *force majeure* or intrusions in the field trial site;
4. Copy of the proposed Public Information Sheet (PIS) for Field Trial;
5. National Commission on Indigenous People (NCIP) Certification Precondition (if applicable);
6. If the site is within an ancestral domain or ancestral land, the applicant shall secure the Free and Prior Informed Consent (FPIC) of the concerned Indigenous People/Indigenous Cultural Community in accordance with the Indigenous People's Rights Act. If the site is within a protected area under the National Integrated Protected Area System, the applicant shall secure an endorsement from the Protected Area Management Board of the protected area; and
7. Proof of payment of application fees.

The undersigned certifies that based on his/her personal knowledge and/or authentic documents:

- (i) all the information in this application are true and correct; and
- (ii) this application contains all information and views on which to base a decision and includes relevant data and information known to the applicant which are unfavorable to the application.
- (iii) The undersigned likewise warrants that the regulated article is to be imported solely and exclusively for use in field testing.

CARLO LEO U. CABRAL  
(Regulatory Science Team Lead/Authorized Representative)

Republic of the Philippines)
